2. Parents fill out lottery slip and return to the KCC office in the Recreation Building before 9 a.m. Tuesday, December 4. Please note that we've included two lottery slips: one for kindergarten students and one for grades 1-6.
3. Lottery drawing takes place on Tuesday, December 4, 12 noon, in the KCC office. You do not need to be present for the drawing.
4. KCC staff post results for the kindergarten and grades 1-6 drawings by 3 p.m. on Wednesday, December 5. Results are posted on the exterior door of Room 3 of the Kensington Community Center (Youth Hut), on the vestibule door of the Recreation Building, and online at www.kaseplottery.com.
5. Registration begins for kindergarten students at 6:45 p.m. and at 7:15 p.m. for grades 1-6 in the Community Center. Names are called in the order drawn in the lotteries.

Some frequently asked questions about registration:

I can't attend registration—how do I sign up for classes?

Another family can list you on their lottery slip and sign up for both families at registration. They cannot register for you if your name is not on their lottery slip. You can also sign up for any spaces left in classes after registration in the KCC office. Only one lottery slip should be submitted for two families registering together.

Can I register if I forgot to submit a lottery slip?

You can come to registration and receive a number that follows the numbers given out through the lottery. As above, you can also sign up for any spaces left in classes after registration in the KCC office.

What happens if I arrive at registration after my name has been called?

You'll need to get a "walk-in" number and wait until the rest of the lottery numbers have been called.

Do I need to fill out any paper work before registration?

Please fill out the top section of the registration form and bring it with you to registration. The registrar will fill in classes for you at the bottom of the sheet, so please leave this part blank. You'll find a separate worksheet in the packet that you can use to jot down first and second choices for classes.

May I register if I owe money for a previous session?

No, you may not sign up for classes on registration night. Please come by the KCC office to clear your account. You may register in the office for classes with openings.

Do I need a lottery number to sign up for gymnastics, karate and fencing?

No, you may sign up for any of these classes directly without having a lottery number. The sign-up tables for those classes will be in a side room off of the main community room during registration.

IMPORTANT INFORMATION FOR ALL KASEP PARENTS

SIGN-OUT PROCEDURES

On the registration form there will be a place to check and sign a waiver which allows your child to leave KASEP classes on his or her own. If you do not sign this waiver, you or whomever you have assigned are required to come into the classroom and sign the child out before he or she may leave. Students with permission to leave on their own may only leave at the end of the class.

The KASEP staff is making every effort to be sure that all students are signed out before leaving the classroom, but it is important that we have your cooperation to insure that (1) you or a person that you have assigned always signs out before taking the child from the classroom, and (2) you talk with your child about not leaving the classroom or the area just outside the classroom until you or the assigned person comes to pick him or her up. To change the child's status in the middle of a session, you need to sign a new form in the KCC office and also alert the appropriate KASEP teachers so they can change the sign-out procedure for your child in their roll books.

THE BIGGEST HELP PARENTS CAN GIVE US IS TO BE ON TIME OR EVEN A LITTLE EARLY TO PICK UP THEIR CHILD.

If you have given written permission for your child to leave the classroom on his or her own, your child should know where they are supposed to go after class.

KASEP is only responsible for students in grades 1-6 after they check in at their KASEP class. Parents are responsible for providing any required assistance to ensure that their children find their way from school to KASEP classes. If parents do not think their child is able to independently get to KASEP classes, they should consider waiting until their child is older to start KASEP classes. Please let us know if your child will be missing their KASEP class.

KINDERGARTEN PARENTS

In order to provide enrichment classes to all kindergartners, KASEP offers before school enrichment classes for PM kindergartners Monday through Friday, as well as after school classes for AM kindergartners every day.

The PM kindergartners taking a before school KASEP class should arrive at 10:15 am for their KASEP class (see class descriptions for location of classes). KASEP teachers will teach their class and will then walk students up to their kindergarten classroom. KASEP teachers will arrive at the kindergarten classroom in time to pick up the AM kindergartners. Once the PM kindergartners have gone into the classroom, the KASEP teachers will walk the AM kindergarten group down, supervise lunch and teach their class. After the class, those children must be picked up at their class site by parents or assigned caregivers.

KASEP

Kensington After School Enrichment Program

59 Arlington Avenue
Kensington, California 94707-1037
(510) 525-0292

For more than twenty years, KASEP has been a tremendously successful after school enrichment program for our children, thanks to a hard-working staff, quality teaching and the continued support of parents and the community. Over the years, KASEP has received requests for price reductions from families who cannot afford the fees. In an effort to make our classes available to more students, we are offering four partial scholarships each session.

Scholarships are limited to one scholarship per family per session. Scholarships are 80% for students eligible for the free lunch program; 50% for students eligible for the reduced lunch program or demonstrated need. A space will be guaranteed for the class chosen. Applications will be processed first come, first served with a waiting list of up to four names for the following session. The waiting list will not be carried over the summer. All application information is kept confidential.

All scholarship applications for the Winter 2008 classes are due by Monday, December 3rd. For further information or to apply for a scholarship, contact:

Esther Hill at (510) 525-0292

POLICY

PRICE OF CLASSES, REFUNDS AND CLASS CANCELLATION POLICY

Please note that the variation in class fees is due to several factors, including the number of weeks that the class meets during the session, the length of the class, and the class size. This Winter, KASEP holidays are Monday, January 21 and Monday-Friday, February 14-18. Monday classes will meet 9 weeks, Tuesday, Wednesday, Thursday and Friday classes will meet 10 weeks.

Students may drop a class in the first week. There will be a non-refundable processing fee of 10% of the class cost for any class dropped. No refunds are given for students who drop out of class after the first week. The rationale behind this policy is as follows: The KASEP Program operates on a break-even financial budget that requires a minimum number of students in each class. If a parent withdraws a child from a particular class, KASEP has lost the opportunity to fill the class with another student. If a refund were made, the class would not break even and the program would be in jeopardy.

Our break-even financial budget necessitates a minimum class size. When that size is not met, parents may be asked whether they would be willing to pay more in order to avoid cancellation of the class. If a class is cancelled due to low enrollment, a full refund will be given.

If parents have not paid in full for all previous KASEP classes, they will not be eligible for the lottery or KASEP classes until they have paid their outstanding balance in full.

FOR INFORMATION ABOUT SCHOLARSHIPS, CONTACT THE KCC OFFICE.

ATTENDANCE:

Parents must notify KASEP (525-0292 message machine) if a child will be absent.

Each teacher takes attendance every day and gives the roll immediately to the Afternoon Supervisor, who then checks unaccounted absences against the school roster for the day. If the child is still not accounted for, the Afternoon Supervisor will call the parents' home and work numbers. If there is no answer, she will call the emergency numbers listed on the child's registration form. Should calling all available numbers prove fruitless, a call to the Kensington Police will be made if the parent has given authorization to do so.

AFTER CLASS: Please read brochure page titled IMPORTANT INFORMATION FOR ALL KASEP PARENTS regarding sign-out procedures. Parents or guardians are encouraged to pick up their children promptly at the end of the class period. Parents will be charged a \$15 late fee for each fifteen minutes or part thereof that they are late.

DISCIPLINE: Our program is designed to offer quality classes to children after school. Disciplinary problems disrupt the classes and affect the quality of the teaching. The parent or guardian of a child who has disciplinary problems will be notified on the first offense in an attempt to enlist the parent or guardian's help in correcting the problem. A second offense will result in the child being permanently dismissed from the class. Any behavior deemed by the teacher to be dangerous will result in the immediate dismissal of the student. The parent will be notified of any action taken. In a case of disciplinary dismissal, no refund will be given for the same reasons stated above under "Refunds".

Here are just a few of the fun projects: Cut out paper animals with pop-up beaks and curly tails, fold an accordion book with a secret picture on the spine, create a treasure book with pockets, draw and print with water-soluble inks, and learn to bind the prints together in a collection, and construct a spectacular origami-fold booklet.

Elaine Chu loves teaching art and book arts and has exhibited in various craft shows. She has worked as a graphic designer and piano instructor internationally. She has a B.A. in music from Yale University and a B.F.A. in graphic design from University of the Arts in Philadelphia.

From the very beginning of teaching carpentry to kindergartners, I was never interested in just playing around with wood. I wanted these young carpenters to learn to use real tools and to make real projects, in a safe and supportive environment. To my continuing delight, these five- and six-year-olds are able to make a wide variety of projects of ever-increasing complexity. They learn problem solving, coordination skills, and even some basic math. They have fun and are always proud to take their amazing projects home to enjoy for years to come.

Sandy Thacker has taught carpentry to kids for more than twenty years. Sandy, who has a Master's Degree in Education from Stanford University, previously taught high school and middle school and then worked for several years as a carpenter. She loves working with young students, and has developed a wonderful program for teaching woodworking skills to children.

Explore the World of Nature by interacting with the hillside environment around our school. Did you know that lizards, snakes, butterflies, squirrels, gophers, deer, as well as a host of smaller animals and insects live right outside our doors? Our Critter class is a fun way to see, talk about and learn about some of the animal and plant neighbors we are close to. Chris likes to take short walks for looking and collecting, and he uses art and craft work as a way of amplifying and illustrating the natural world. In past years we have studied frogs, snails and slugs; caterpillars, bugs and butterflies; birds, fish and crickets; a lizard and a snake or two. Things to see, things to make, things to take home. Join the fun!

Chris Lack works both as a gardener/designer and as a teacher. He has degrees from California College of the Arts and San Francisco State University in Fine Arts. He has been a practicing landscape worker/designer for over twenty years in this area, and has taught many classes during that time as well. Nature, pottery and garden works are near to Chris' heart and his interest in them comes through in all of his classes.

Wednesdays: \$175 (materials included) 10 week session

There is something very special about creating something from nothing. You see something you really like, but instead of buying it you make it yourself. Along the way, you learn new skills, the safe use of a variety of tools, and some practical math. When your project is completed, whether it's a paddle boat, a marble maze, a birdhouse, a xylophone, or something else you think of yourself to make, it's a great feeling to take it home to play with, use yourself, or give as a special gift.

There is a great satisfaction in working with wood. As you get older and more adept at working with tools, you can also expand your skills by creating more complex and creative projects, sometimes working from your own designs. When you finish a project, whether it's a pinball machine, a pool table, a xylophone, a stool, a bookshelf, or something else you decide to make, it's a special feeling to know that you made it yourself to use or to give as a special gift to family or friends.

If any parents have access to wood or other carpentry materials or tools that they might donate to our carpentry classes, please call Sandy at (510) 482-1258. Thanks.

Class Size: 7-9

Cost: \$120 (materials included) Grades 2-3 9 week session

\$110 (materials included) Grades 4-6 9 week session

Kids who like to draw, as well as kids who would like to be better drawers, will all love this session of Everyday Art. And good news - you don't have to be "a good drawer" to become a better drawer in this class. Carolyn works with the kids on their drawing skills, using an approach that gets immediate results for a big boost in drawing self esteem. The students will go on to apply these skills in creative projects using color theory, mixed media, and abstract art. They work individually, at their own level, each interpreting the projects according to his or her own development. Kids who are not confident about their art skills won't find the class intimidating, yet "Good Drawers" will find it challenging. In fact, kids coming into the class with less confidence in art are sometimes amazed by what they can do. (For pictures of some past projects from her classes, you are invited to Carolyn Holm's website at www.carolynholm.us; click on art classes.)
